Countess of Blessington

Reverse the seven signs of aging

Minimize fine lines and wrinkles, moisturize, tone, exfoliate, minimize pore size, prevent free radical damage and firm your skin. All of these can be accomplished with the Theraderm Skin Health System. Introducing *NuPeel*, a natural peeling gel, that reverses the visible appearance of each of the seven signs of aging. NuPeel instantly removes rough, dry keratin surface cells. Papain and carica papaya extracts naturally loosen the glue-like attachments of dead cells to allow visible, painless shedding, leaving behind soft, smooth skin. *NuPeel* can be used weekly or as needed. Minimize pore size and tone your skin with *Theraderm Cleansing Wash*. This unique soap-free, fragrance-free foaming gel gently loosens and cleanses the skin of extra oils, deposits, cellular debris and residue without drying the skin. Its gentle cleansing action purifies and clarifies for smooth, radiant, refreshed skin. *Fruit Acid Exfoliant* provides a 10% lactic acid exfoliant that allows the outer layers of dry skin to release and shed. This exfoliation stimulates new growth in the basal layers of the skin leaving these cells healthy and elastic. *RS-OPC Reparative Gel* is an oil free gel that enhances the repair of damaged collagen and elastin. It also functions as a free radical scavenger with an antioxidant potential that is 20 times more effective than Vitamin C and 50 times greater than Vitamin E. Together these products can effectively turn back the aging clock.

Make More Time for “You”

Do you ever feel like there is just not enough time in the day for “You?” Wouldn’t it be nice to treat yourself to some beauty time to rejuvenate? Here are some quick fixes you can do on a lunch hour.

Botox Cosmetic treatments provide an immediate result there is no down time, no recovery time and is an in-office procedure that takes 10–20 minutes. *Botox Cosmetic* may be a treatment for you if fine lines and wrinkles cause you to look tired all the time. *Juvederm*, another in-office procedure will help treat moderate to severe facial wrinkles and facial folds. This procedure takes 30–60 minutes with little down time. *Latisse* can help you achieve longer, fuller, darker lashes. A quick fifteen minute consult is all it takes to find out if *Latisse* is right for you. *Latisse* is a product you can use at home. Have you ever considered cosmetic surgery to improve or enhance your appearance? During a consultation with Dr. Gabriel, he will determine if you are a candidate for *Botox Cosmetic*, *Juvederm*, *Latisse* or even *surgery*. A consultation takes 30–60 minutes. Drop in for a skincare evaluation to address issues with your skin and find out which skincare products are suitable for your skin type.
